THE UNFOLDING TV

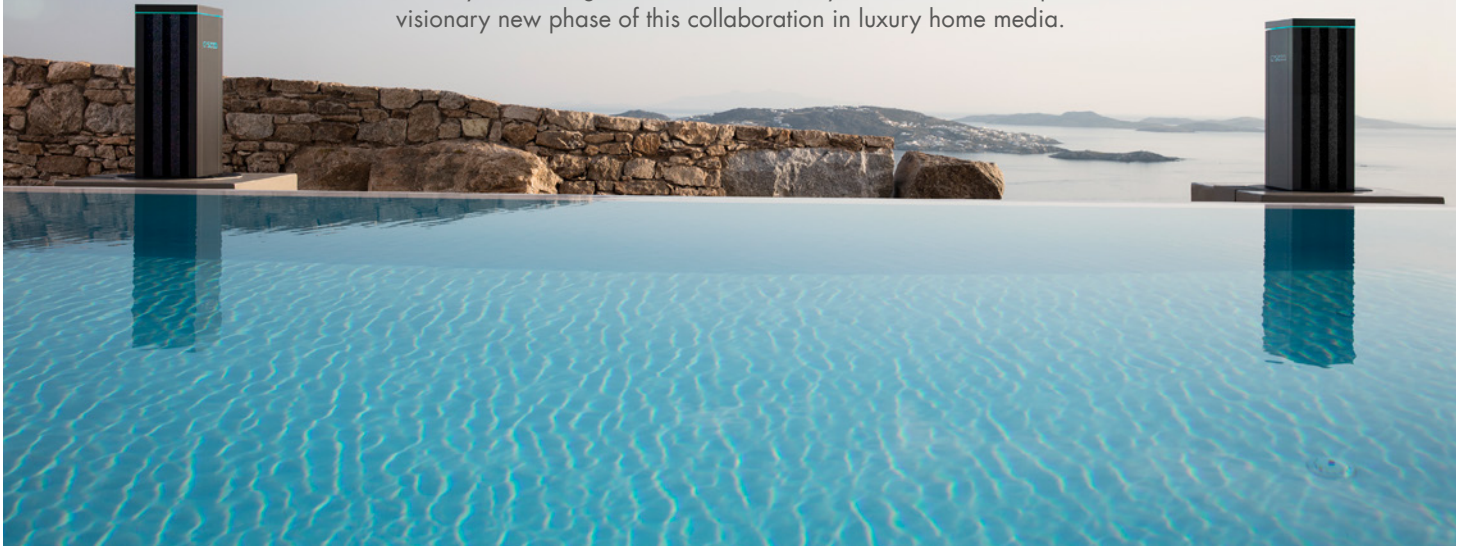

MAUNAKEA

THE PINNACLE OF HOME ENTERTAINMENT

Function, form, design and the ultimate luxury home cinema await at the push of a button. Recline in Island Prestige and rotate to face the screen – but not just any screen. C SEED M1 MicroLED TV magically rises from the floor and unfolds for your viewing pleasure, ready to swivel to the perfect angle.

THE STORY OF MAUNAKEA

L-Acoustics and C SEED first partnered in 2017 when L-Acoustics loudspeakers were embedded into C SEED Hyde 125 high end outdoor audio system. Maunakea represents a visionary new phase of this collaboration in luxury home media.

“Maunakea is another leap forward in our collaboration with C SEED and a much needed departure from the conventional, dark cinema room. Maunakea taps into a contemporary and vital desire to transform the living space into a more human-centered, multi-purpose entertainment, wellness, and social environment.”

Christian Heil, President and Founder of L-Acoustics

“Separately, Island Prestige and M1 TV each represent superb and inimitable technological achievements in their respective markets. But together? Maunakea is the latest evolution and true zenith of home entertainment, rivaling the experience of the movie industry’s top screening rooms.”

Alex Swatek, CEO of C SEED
